Film Review
KING KONG
(3 hours and 7 minutes)

A woman named Ann goes to an island to make a film. The island is very dangerous! There are many animals and a giant gorilla named Kong. Kong takes Ann and her friends try to rescue her.

This is a big movie. Everything looks big! There are many exciting scenes in the movie. For example, Kong has to fight dinosaurs and the men have to fight giant insects. The special effects are excellent! It is also a sad movie sometimes.

KING KONG was made in New Zealand by Peter Jackson, the same director who also made the three LORD OF THE RINGS films. It is a "remake" of an older film that was made in 1933.

📖 A **remake** is when somebody makes a new version of an older movie.

Web page (URL : http://www.toeic.or.jp)

We will put some TOEIC examples in the next copy of High lights

🕮 *LEARN NEW ENGLISH!*

You should know most of the words that you have read in this copy of HIGH LIGHTS but here are some that you may not know:

BADMINTON – a game played with a racquet and a shuttlecock

RESOLUTION – a promise (something you say that you will do)

GYMNASTICS – For example:

MAPLE SYRUP – 'syrup' is a bit like sauce, except that it is sweet. For example, you might put **tomato sauce** or **soy sauce** on something that you are eating for your dinner. But you might put **chocolate syrup** or **maple syrup** on desserts or sweet food like ice cream or pancakes.
